IMPLICIT BIAS IN THE CLASSROOM

Psychology Professors Adam Fingerhut and Nora Murphy have developed an Implicit Bias Workshop specifically tailored to LMU faculty. Through a mix of short presentations, activities, and discussions, the workshop will explore how implicit biases form in our brains, their impact on other people and society, and strategies we can take to mitigate the implicit biases that we all possess.

Thursday, October 17, 10am-12pm
Center for Teaching Excellence
University Hall 3000
