ENTRANCE REQUIREMENTS

ALL INCOMING LMU STUDENTS MUST:

1. Review the Consent for Treatment form.
2. Review the Notice of Privacy Practices.
3. Complete Tuberculosis (TB) screening and/or testing.
4. Provide documentation of two measles/mumps/rubella (MMR) immunization or proof of immunity (blood titer).

Step 1: Go to MyHealth portal

- To access MyHealth portal, log into my.LMU.edu. From the top menu, choose System Logins and select MyHealth.

NOTE: ONLY ENROLLED STUDENTS HAVE ACCESS TO MYHEALTH PORTAL.

Step 2: Review and acknowledge the following forms

- Consent for Treatment and indicate agreement by checking the box. If you are under 18 years old, download Consent for Treatment of a Minor form located in download forms. Print this form and have it signed by your parent or guardian and submit it to SHS.

- Notice of Privacy Practices and acknowledge by checking the box.

Step 3: TB testing

- IF listed as required on MyHealth portal, complete the TB Risk Screening Questionnaire.

Students born in a country with high incidence of TB (see list on the back) or students who answered “YES” to any of the questions outlined on the TB Risk Screening Questionnaire MUST:

- Enter the date of TB skin or blood test within the last 12 months on the Immunization Entry form.

- For positive blood or skin TB test you MUST submit a Chest x-ray report.

Step 4: Complete Immunization Entry form

- Input your immunization/testing dates.

Step 5: Upload Records

- Upload copies of your immunization records and, if applicable, TB test records and chest x-ray report to MyHealth portal.

Failure to meet the SHS Entrance Requirements will result in a “Health Hold” on your student account and will prevent you from adding or dropping a course.

Questions?

Please review the Entrance Requirements FAQs at lmu.edu/health.

Allow 10-14 days for SHS to process your submission(s).
HIGH RISK FACTORS FOR ACQUIRING TB ARE AS FOLLOW:

- Close contact with persons known or suspected to have active TB disease
- Persons born in one of the countries listed below that have a high incidence of active TB disease
- Frequent or prolonged visits to one or more of the countries listed below with a high prevalence of TB disease
- A resident and/or employee of high-risk congregate settings (e.g., correctional facilities, long-term care facilities, and homeless shelters)
- A volunteer or health-care worker who served clients who are at increased risk for active TB disease
- A member of any of the following groups that may have an increased incidence of latent M. tuberculosis infection or active TB disease — medically underserved, low-income, or abusing drugs or alcohol

COUNTRIES WITH HIGH INCIDENCE OF ACTIVE TUBERCULOSIS

Afghanistan
